

Dargaville Primary School

Mō te katoa - Each for all

Release Form for Ongoing Use of Student Work and Appearances

Dear Parents / Legal Guardians

Our school uses a range of learning technologies to enhance student learning. From time to time we publish material on our school Intranet, website www.dargavilleprimary.school.nz and/or facebook for educational purposes. Our aims are to promote and share learning, to communicate general information within our school and beyond to our school community. The material may include examples of student work and the inclusion of student appearances on our website or facebook page.

Student appearances may include scanned, digital or video records or representations of students taking part in school or class events.

This release form gives the school the right to select any appropriate student work or appearance to publish online. You have the right to withdraw your permission at any stage and the material will be removed.

Regards
Curtis Gaylor
Principal
